

Investing for Success

Moreton Bay
ENVIRONMENTAL EDUCATION CENTRE
Inspiring Champions for the Bay

Under this agreement for 2018

Moreton Bay Environmental Education Centre will receive

\$5,000*

This funding will be used to:

- support STEM initiatives (STEM Horizons) within the Wynnum Manly school education alliance (WMsea) cluster of schools
- support an extension literacy initiative with a Young Writers program across the WMsea cluster of schools.

Our initiatives include:

- the development and delivery of an extension primary school STEM program to target high achieving students within the WMsea cluster
- initiation of a STEM professional learning community to enhance primary science teaching practices within selected science units
- the promotion and sharing of positive outcomes through the WMsea Head of Curriculum, GEMS and Principals cluster
- offering quality STEM resources that schools would not normally be able to access from their own site
- providing professional development to teachers on 'working scientifically' and learning beyond the classroom
- the development and delivery of an extension of the literacy Young Writers Program, in partnership with an award winning environmental author, where students enhance their writing skills by producing short stories which are published.

Our school will improve student outcomes by:

Part-funding of an additional teacher (or equivalent resource) to assist with the development of STEM and the Young Writers literacy initiatives for delivery to the WMsea cluster of schools.	\$5 000
TOTAL	\$5 000
